**To whom it may Concern**

Dear Sir:

I am writing in support of the Journal of Entrepreneurship & Organization Management effort to be included in additional citations and indexing services.

The editors of this relatively new journal have adopted a robust peer review process to assure the academic quality of the articles they accept for publication.

The editorial board members and journal staff are working very hard to establish its high professional standing. Their business model would greatly facilitate wide distribution of high quality and timely reports on salient issues in management. Recommending this journal to be indexed in new indexing platforms is consistent with the said business model and would help the journal attain its mission.

Sincerely,

Arie Halachmi, PhD  
Professor &  
2010/2011 Distinguished Fulbright Professor
