RE. indexing of Journal of Obesity & Weight Loss Therapy in PMC

Dear Sir or Madam.

I am a faculty member of University of Virginia School of Medicine. I have had the honor to work with Journal of Obesity & Weight Loss Therapy as an editor since September 2011 and have witnessed its fast growing since its creation. Now it has successfully released 18 regular issues and 1 Special issue. The journal staff has worked very hard for the journal to establish its high professional standing. Given that obesity is becoming epidemics in the United States (nationwide incidence of obesity (BMI > 30 kg/m²) has reached to 27.8% --CDC Behavioral Risk Factor Surveillance System 2012), there is an urgent need for the research related to obesity prevention and therapy. In order to expand its scientific impact and benefit more scientists and patients, I strongly recommend this journal to be indexed in PubMed Central as soon as possible. Thanks for consideration of my recommendation!

Sincerely,

A handwritten signature in black ink, consisting of a series of loops and a long horizontal stroke that extends to the right.
