Re: Journal of Palliative Care & Medicine

To Whom It May Concern:

I am a member of the editorial board for the open access journal, Journal of Palliative Care & Medicine. As an editorial board member, I work to insure that this journal maintains high standards for manuscript publication. Having been on the board over the past year, I can say that the quality of the works submitted is quite high. If the submissions are unfit for publication, we reject them which actually happens quite often. I have tried to maintain a quality of accepted articles that is on par with traditional medical journals.

The Journal of Palliative Care & Medicine is applying for PubMed indexing. Unfortunately, because the journal is not PubMed listed, many researchers are unaware and do not discover the wonderful articles in this journal. I ask that this journal be indexed in PubMed and appreciate your consideration.

Sincerely,

Jack Fu, MD
