

Letter of Consent

I hereby express my great interest in continued service in Journal of Palliative Care & Medicine as an Editor. I further give my consent to disclose by the Journal my affiliation and contact information. I do not have any conflict of interest, which would interfere with this important service for science, medicine, and technology communities.

In my opinion journal cover very important segment of medicine and it is clear development in journal quality and quality of articles from the beginning until now. On line submission and on line editorial tracking is very helpful and in a step with modern development. Fast publishing and open access is valuably as well. It is my pleasure to be part of Editorial team in journal which I consider as highly professional and scientific.

I strongly recommend this journal to be indexed in Pub Med Central. Journal staff and editorial board members have worked very hard for the journal to establish its high professional standing.
