I am writing in support of indexing the Epidemiology: Open Access in PubMed Central.

Since its early stages, the journal has consistently published high quality research in a variety of epidemiology related topics. PubMed indexing will provide a wider exposure to noteworthy research that can further advance the science of epidemiology and improve the health of societies all around the globe.

I strongly recommend the Epidemiology: Open Access be indexed in PubMed Central. The Journal staff and editorial board members have worked very hard to establish its high professional standing.

Please do not hesitate to contact me if you require additional information.

In MA I Ca.

Sincerely,

Susan M Abughosh, PhD

Assistant Professor
